

Future Industry Leaders Alliance

Knowledge, Relationships, Leadership

Future Industry Leaders Alliance

In the rapidly changing and increasingly challenging world, the Waste and Recycling industry needs its future leaders to be well equipped with the best ideas, knowledge and business networks to maintain its leading edge.

The Future Industry Leaders Alliance provides a business environment for emerging Waste and Recycling Industry leaders and students studying our disciplines to network, challenge new thinking, mentoring and develop new skills.

The Alliance will

- › Challenge new thinking and creation of 'out of the box' ideas about waste and recycling in Queensland
- › Enable greater understanding of how technology and innovations can assist the industry
- › Build new business networks at all levels with peak industry professionals
- › Build a waste and recycling network environment for mentoring, leadership and developing new skills
- › Enable creative thought leaders and unique thinkers from non-related waste environments to present and engage with FILA members
- › Provide a formal process for all new ideas, and leading concepts to be channelled to the WRIQ CEO and Executive Committee
